- **Name of the event – Seminar**
- **Date – 23.03.2023**
- **Title of the topic- Dynamic of Indian Stock Market**
- **Name of the Degination of Resource person – Dr. Suresh Chandra Das, Lec. In commerce , Kendrapara autonomous college. Kendrapara**

Abstract - The Indian stock market is considerate to be one of the earliest in Asia, which has been In operation since 1875. However, it remained largely outside the global integration process until 1991. A number of developing countries in association with the international finance corporation and the world bank took steps to establish and revitalize there stock market as an effective way of mobilizing and allocate funds . in line with the global fund, reform of the Indian stock market also started with the establishment of SEBI and technological advancement, the Indian stock market has now reach the global standard. The major indicators of stock market development show that significant development has talon place in the Indian stock market during the post reform period.
